

LOCAL MISCELLANY.

REAL ESTATE BEGINNING TO STIR. The real estate market last week was still oppressed by the dulness of the summer, and dealings were small.

CHEAP CAR-FARES ON THE BRIDGE. A communication was received yesterday by the Trustees of the Brooklyn Bridge from Charles H. Swan, secretary of the Nassau Cable Railway Company of Brooklyn, in which he states that the company's engineer, after carefully looking over the matter, declares that without the Chatham-street extension and without additional track room, he can make a change from the present system to a system that would convey three or more cars in trains at the rate of sixty trains each hour each way, amounting to a daily average of 2,160, and in July 621,000, a daily average of 20,700, and in July 621,000, a daily average of 20,700, and in July 621,000, a daily average of 20,700.

THE BRIDGE A DELICATE THERMOMETER. How much has this hot weather expanded the bridge, Mr. Martin, a Tribune reporter asked of the superintendent last week. "I wish it would expand the receipts," responded Mr. Martin, by way of a pun. "It has had some effect. The saddles on the towers are not changed by it, as the expansion of the cables is even on both sides. The slight rise in the center of the bridge shows an expansion of about twelve inches. It changes with every change of temperature, and is as good a register as any thermometer made. With a proper service and a three-cent increase, the city would receive net more than double and perhaps three times the amount now received, thus benefiting citizens and taxpayers.

SUPPORTING THE RESULTS OF A SPIREE. Frank Murphy, of East One hundred and forty-third-st., lies in the Ninety-ninth Street Hospital suffering from a stroke of the brain. His head is bound with wet cloths, and he is suffering great pain. On Thursday night, while on a thru-ave. car he refused to pay his fare, and as the conductor, who attempted to remove him from the car, he was thrown out by the driver and the conductor, his head striking the iron track. Both the driver and the conductor were arrested, but were released by Police Justice Wilson on the testimony of passengers that Murphy was drunk and disorderly. Murphy was considered out of danger yesterday, and denied an intention of violence. He said that he knew he says, was that he became sleepy in the car. He is a carpenter, and has a wife and two children.

THE OPPOSITION TELEGRAPH LINES. It was reported in Wall Street yesterday that the embarrassment of the Bankers and Merchants' Telegraph Company had ended in an application for the appointment of a receiver. President Moffatt, in reply to the inquiries of a Tribune reporter that while he could not say that the company would not be placed in the hands of a receiver, no action of the kind had been taken. There was no real change in the relations of the opposition telegraph lines yesterday. Recent dispatches from John W. Mackay are to the effect that he will be in New York in two weeks, and that he will then adjust the matters of the united telegraph lines, if a satisfactory agreement can be made. It is understood that until his arrival there will be no change.
